Do you frequently use the Dubai Metro? How To Use The Map

Dubai's public transportation system is one of its best features. The city's metro system is part of a comprehensive network that includes trams, buses, taxis, ferries, and car rentals. While traveling in Dubai by metro can be a little more complicated than other modes of transit (you need to purchase tickets at vending machines before boarding), it's definitely worth it for ease and convenience once you get accustomed to navigating the system.
